

IN THE SPECIFICATION

Please change the sentence that begins on line 22 of page 25 to read as shown below:

The context frame provides all the knowledge required to understand entity behavior and the impact of events, actions, element change, resource change, reference position change and factor change on entity performance (page 26, lines).

Please change the sentence that begins on line 27 of page 69 to read as shown below:

We will develop this knowledge by developing a detailed understanding of the impact of elements, environmental factors, resources, reference position, events and actions on one or more subject entity function measures
